DETAILED ACTION

This Office Action is in response to the Applicants' amendment filed July 20, 2006.

Allowable Subject Matter

Claims 29 and 34-39 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose, make obvious, or otherwise suggest the structure of the applicant's together with the other limitations of the independent claims, such as "an etch stop layer formed on the substrate, including on the first gate electrode; an undoped insulating layer formed on the etch stop layer; and an a doped insulating layer formed on the substrate, the etch stop layer, the undoped insulating layer, and the first gate electrode".

The dependent claims being further limiting and definite are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art with respect to semiconductor devices having an etch stop layer, an undoped insulating layer and a doped insulating layer:

Lage et al. (US 6,184,073 B1)

Lucas et al. (US 6,287,951 B1)

Shamble et al. (US 6,518,591 B1)

Trivedi et al. (US 6,639,319 B2).
